Study Plan Mathematics for Business and Industry M.Sc. (MBI)

Based on study and examinations regulations version of 9th July 2024
Valid for students starting from winter semester 2024/25

SHW	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24

Sem. (CP)

Sem. (CP)					
1 (30)	In-Depth Module (5)	In-Depth Module (5)	Application Module (5)	Application Module (5)	In-Depth Module or Application Module (5)	Project (5)

alternatively: **Research Project 1 (10) (2 SHW)**

2 (31)	In-Depth Module (5)	In-Depth Module (5)	Application Module (5)	In-Depth Module or Application Module (5)	In-Depth Module or Application Module (5)	Advanced Seminar (6)

alternatively: **Research Project 2 (10) (2 SHW)**

3 (29)	Modern Project Management (3)	Master Thesis (presentation) (4)	Master Thesis (written document) (22)

Legend:

mathematics
applications
CP   credit point
SHW   semester hour per week

Remarks:

A study plan is a proposal for the organization of the courses resp. examinations within the standard duration of study as permitted by the study and examination regulations.
The individual organization of the student may deviate from this proposal. Only the provisions of the study and examination regulations are binding.

In case of doubt, the valid legal norms published by the OTH always apply.
For each semester the programme of courses is decided by the faculty board.
A research project counts as one in-depth module and one application module.
